VOLUME FOUR.

STONY PLAIN, ALBERTA. THURSDAY, JUNE 5, 1924

WHOLE NUMBER 201

Now is the Time to Clean
Up Your Brush Land.

We Have Stumping Powder, Caps
and Fuses.

Also a New Stock of Cord Tires
and Tubes at Right Prices.

A. E. MICHAEL'S,
A GOOD PLACE TO TRADE.

Funeral of Mrs Eberhardt.

The funeral took place on Sunday last of the wife of Rev E Eberhardt. Services were held in St. Matthew's Church, the edifice being filled to overflowing with those wishing to pay their last respects to the departed. The service in the church was conducted by the Rev H. J. Boettcher, and Rev Mr Thies of Wetaskiwin, and at the graveside by Rev Boettcher. Mr Eberhardt's sons Amij and Karl were, up from the trail; and another son, John, was present from Brule, Mr J. Weiderhieden of St. Louis, a brother to the deceased, was present at the services.

Buy Your Tickets Locally.

When making a trip to some distant point, you should buy your railway ticket at the station here. When you go to the City to buy your ticket, you are out your fare and expenses and pay the same rate as you would here.

Buy here. Save this extra cost — and increase Stony Plain's business.

If you contemplate a trip to the Old Country, or if you purpose bringing friends from the Old Country, all arrangements can be made with the local Canadian National Station Agent, who represents all steamship companies.

Calendar.

- June 5 — Athletic Ass'n meets.
- 6 — Ing. Councilors meet.
- 6 & 9 — Military Demonstration in Ducholke Hall.
- 7 — D. F. A. Local meet.
- 7 — Agricultural Society directors meet in Town Hall.
- 8 — Ball game, Onaway at Stony.
- 10 — Women's Institute meet.
- 13 — U. F. dance, Trautman's barn at Holborn.
- 13 — Box social and dance, Muir Lake Schoolhouse.
- 14 — Hon J. R. Boyle and Hon C. R. Mitchell will give addresses in Stony.
- 17 — Quaintang.
- 18 — Community Picnic, Spruce Grove.
- 20 — Grapids Community picnic.

The New Assessors.

The newly appointed assessors for the Municipal districts are meeting in Edmonton on June 5th, for the purpose of receiving instructions regarding their work from Provincial Tax Commissioner Spence. Their work of assessing will commence immediately after their return home, and must be completed by September 1st, 1924. Mr J. G. Schumir is the assessor for the Spruce Grove M.D. and R. L. Ghiselin for Inga.

The form to be filled out for each quarter section in the municipal district is a very comprehensive document, and will include a report on the land; the area; the waste, hay, pasture and arable portions; the school facilities; and such other details as its nearest shipping point, nearest school, nature of roads, and also the water supply. There is no doubt many a farmer will know more about his farm when he reads the Assessor's report on same.

The Trail Rangers.

On Victoria Day, May 24, the Stony Plain Trail Rangers went on a hike up to near the farm of Mr Adam Wolf at Glory Hills. There were seven along ther. Mr Kibblewhite and Mr Stockwell were the leaders of the hike. The others attending were: Herb Wolfe, Ed Dammann, r. Giles Clarke, Es. Lory and Lorne Outway. We all had a good time, with lots of and plenty to eat. The distance covered was about five miles. — L. O.

On College Heights

Teacher — Johnny, give me a sentence using the word "dialect".
Johnny — People who drink moonshine dialect sight quicker than those who don't.

Shoppers are reminded the Wednesday half-holiday is now in operation in Stony Plain and continues thru June, July, Aug.

LOCAL NEWS.

John Knebel was in town Saturday.
Mrs Michael was visiting friends in Edmonton on Monday.

License Inspector Downey gave the local hotel the once over last week.

"Bob" Stoker came down from the North last week.

Mrs Jas Matulis of Toronto is visiting in Stony this week with her brothers, August and Paul Meredith.

Jack Weidling left Monday with the purebred horses from the local Government Farm which are being sent to the Government farm at Vermilion. Jack is going on to Winnipeg with prize stock.

Tuesday, the King's Birthday, was celebrated in Stony Plain in a very quiet manner.

Inspector Piper paid a visit to the local Police Detachment on Tuesday.

Officer Smith made a business trip this week to Rocky Rapids.

Do not forget the annual meeting of the Athletic Association in the Town Hall tonight.

Contractor Umbach is tearing down the old Miller store. Stony Plain W. I. holds its regular monthly meeting on Tuesday next.

Sunday's train from Prince Rupert was ten hours late.

The Departmental exams for the Public schools start Monday June 10. Those for the High School the Monday following.

A W. I. millinery demonstration will be held June 6, 7, 9, in Ducholke's Hall, at 2.30 to 5.30 and 8 to 10 p.m.

The dance given Saturday night by the Martin orchestra was a swell affair, and was well patronised. The music was all that could be desired, and 12 o'clock seemed to come all too soon.

Stony Plain and the Grove's football teams tangled again on Tuesday evening, on the local grounds. Much better playing was seen on both sides in this contest, with the Grove making a very energetic effort to score a win — and succeeded, by 2 goals to 1. Mr Founda was referee.

Mrs Henry Kulak died on Monday, June 2, in the Misericordia Hospital, Edmonton. Deceased was in her 43rd year and leaves a husband and ten children to mourn her loss. The funeral takes place today, and is being conducted by Rev E Eberhardt.

Farmers and Monopoly

Price is Usually the Factor That Governs Production

We may reason that a certain group of farmers should produce the wheat, another group corn, another group dairy products, and so on, but it will be found that no power will keep men producing a certain kind of farm product when some other pays better. Price is the greatest force in influencing the kind and quantity of farm product produced.

Wages are relatively higher in the city than they are in the country. This causes a movement of the people from the farm to the city. We may well reason that the people will be better off to remain on the farm, that the disparity between the price of farm products and other commodities cannot last. Nevertheless, every thinking business man knows there is no such thing as a farm monopoly.—Hoard's Dairyman.

Those who feel that through co-operative effort a farm monopoly will be established, forget that if any farm product becomes relatively higher than some other it stimulates an increased production which would defeat any form of organization attempting to establish a monopoly. Every sensible farmer and every thinking business man knows there is no such thing as a farm monopoly.—Hoard's Dairyman.

PALE, WAN CHEEKS AND DULL EYES

Is Proof That the Blood is Thin and Impure

It is the blood that gives color to the cheeks and lips, as well as brightness to the eyes. If your blood gets thin the color will fade and the eyes grow dim. By the time this happens you will notice that you tire easily and are subject to headaches and backaches, for the blood goes everywhere and the entire system feels the effects when it becomes thin. Dr. Williams' Pink Pills contain the elements necessary to enrich the blood, and this better blood strengthens the nerves and all the organs and vessels, bringing a glow of health to the cheeks, brightness to the eyes and a general feeling of renewed health and strength. Miss Florence Johnson, Stratford, Ont., who has proved the value of Dr. Williams' Pink Pills in cases of this kind, says:—"A few years ago I was greatly run-down; my blood was very poor and my nervous system in bad shape. The doctor said my condition was due to improper diet and lack of fresh air. I then commenced eating the food he advised and went out daily for a walk. I did not improve, however, and was much discouraged. A friend advised me to try Dr. Williams' Pink Pills. I got no time in getting a supply and an untruthful say that when I had finished the first box I could note an improvement. From then on the progress was steady. My complexion, which had been pale and sallow, began to take on a healthy glow. I felt a great deal stronger and my appetite became normal, and soon my health was fully restored. Before using Dr. Williams' Pink Pills I did not know anything about their wonderful qualities, but now I recommend them to all suffering from similar ailments."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Largest Australian Ranch

The biggest purchase of pastoral property ever recorded in Western Australia has been made by Sir Richard Walde Griffith, who recently bought two prop-rties, each consisting of about 500,000 acres. The pastures, for which the price of \$300,000 was paid, have been enclosed with 700 miles of fencing and 50 paddocks have been built.

CHILDREN CRY FOR "CASTORIA"

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Paregoric, Chamber's Colic and Soothing Syrup. Contains no narcotics. Proven directions are on each package. Physicians erry-

Tourist Traffic To Be Heavy

Heavy Tourist Traffic Is Expected In Alberta This Season

Expectations are for a very heavy tourist traffic to Alberta this season. The railways are preparing for a large influx of tourists to the mountain parks, which will be open shortly and the various auto clubs in Alberta have indications of heavy motor tourist travel. The Mounted Police Pageant and celebration at Macleod, the Stampede at Calgary, and the Stampede and Exhibition at Edmonton, are events which are expected to attract many visitors. The Mounted Police Pageant is on July 1, 2 and 3, and the Calgary Stampede is in the week of July 7, with the Edmonton events the week following.

Plan Metal Seaplane

British Craft Will Be Refueled In Mid-Air

The march of progress goes on apace in aircraft construction and research now proceeding aims to evolve winged ships of metal with staunch sea-going hulls which will be able to stay out cruising, fly over oceans, and only require to replenish fuel occasionally from some surface tender.

Secret developments in metal construction will be incorporated in the new planes, which will be larger than those just tested to carry 15 passengers at 100 miles an hour. Refuelling in mid-air from airplane tankers by means of flexible tube devices is to be developed on the new air boats.

If Tormented With Corns Use Good Old "Putnam's"

It is really a simple thing to remove your corns, and without pain. If you apply Putnam's Painless Corn Extractor. It acts like magic, lifts out the corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's," 25c everywhere.

Was Friend Of White Man

Memory Of Indian Chief Peguis Honored By Monument

In commemoration of the good work of Peguis, chief of the Saulteaux Indians, the "white man's friend" and a "loyal Christian," a monument was unveiled in Kildonan Park on Victoria Day by Sir James Alkins, Lieutenant-Governor of Manitoba. A notable gathering of Red River Valley pioneers, including many members of the Peguis tribe, attended the ceremony. Chief Henry Prince, grandson of Chief Peguis, was present.

The monument was erected by the Lord Selkirk Association.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are potent in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

Splinch Is Valuable Food

The lowly splinch, served as a side dish and scorned by many as "grass," is now found to be one of the most valuable foods known to science. Prof. W. M. Bunker, of Massachusetts Institute of Technology, has proved its value. Fed to white rats, its effect was conclusive. One rat made a startling growth immediately after being put on a splinch diet, while another, denied it, was stunted.

Cuts and Bruises Disappear.—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

Better To Stop

Much better to stop at the crossing and ease if you want to than have the corner poking into you to see what went wrong.

where recommend it. The kind you have always bought bears signature of

Minard's Liniment, the Athlete's Remedy

W. N. U. 1627

This charm you can keep

Youthful radiance of complexion! Millions of women have learned this simple way

The fresh softness, the radiance of youthful skin need not be lost as the years accumulate. Clever women guard this charm—keep it—today.

This simple method does that for millions of women. Now you may use it—and keep that school-girl complexion.

You need only do this

Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful.

But beware of harsh cleansing methods. They injure skin.

Wash too roughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse—and repeat the washing. Then rise again.

Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, correct way

You cannot find a more effective

tive beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive.

Be sure you get Palmolive—which is never sold unwrapped. All dealers have it. For just one week try this simple method of wash results. You will be astonished, delighted!

Use Palmolive for the bath, too. Thousands do—it is so economical.

Volume and efficiency produce 25c quality for 10c

THE PALMOLIVE COMPANY OF CANADA, LIMITED

Winnipeg Toronto Montreal

Palm and olive oils—nothing else—give nature's green color to Palmolive Soap.

Exploits Of D'Oisy

Stir French Aviators

Attempts at Record Flights Are Soon To Be Made

The exploits of Captain Pelletier D'Oisy, the French aviator who flew from Paris to Shanghai, have so stirred French aviators that various attempts at record flights are soon to be made. Col. Vuillemin is contemplating a flight across Africa to the Cape of Good Hope it is understood. Lieut. De Peyer expects the government to authorize a trip to the North Pole, while he is planning to make. Capt. Dagnaux plans to fly from France to Madagascar, while Capt. Gille wants to perform the stunt of leaving Paris in the morning, lunching in Algiers, and returning to Paris for dinner, or covering 3,000 kilometres by airplane in one day.

Stock For Prince's Ranch

Shipment includes Seven Hunters and Small Dartmoor Pony

A number of valuable pure-bred sires and mares belonging to the Prince of Wales have been shipped from Liverpool aboard the steamer Gracia, enroute to the Prince's ranch in Canada for breeding purposes.

The consignment was purchased by the ranch manager, W. L. Carlyle, when on his recent visit to England, and comprises four Clydesdales, including the three-year-old stallion, Baron Blackwood; seven hunters, including the well known sleepchaser, Irish Friar; and a Dartmoor pony. The pony is so small that it was brought to the steamer in a wooden crate.

It will Relieve a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it allays the irritation in the throat. Try it and prove it.

Lunch For The Man

It is always a problem to make up a tasty and nourishing lunch. A reader sends us this letter on the subject:

"My husband, as a rule, hates sandwiches, but this one never fails to call forth words of recommendation—one hard boiled egg, one-half the amount of salt meat (ham, corned beef, dried beef, or cooked bacon). Grind the egg and the meat. Season to taste with salt, pepper, mustard, and a few drops of vinegar. Moisten to spread, with Borden's, Charles Milk. Serve on a crisp lettuce leaf (with a little onion, chives, or celery chopped in with it, if you like). Allow one egg for each three sandwiches."

Old Drawbridge Discovered

As the result of excavations at Trent Park, the residence of Sir Philip Sassoon, a drawbridge of great antiquity has been discovered. Roman daggers and sandals and some quaint horsehoes also have been unearthed. According to tradition, Dick Turpin used to hide in the moat in this park.

Clark's Beans With Pork

Clark's Beans and Pork are all cooked, ready to heat and serve. They save labour, fuel and worry and ensure perfectly cooked beans. The family size contains two pounds net weight.

"Let the Clark Kitchens help you."

Arabia Locks Rivers

Though Arabia is some 1,250,000 square miles in extent, there is not one real river in its whole length or breadth.

The "grain of Mustard" for health

Don't refuse the mustard when it is passed to you. Cultivate the habit of taking it with meat, especially fat meat. It stimulates the digestion and aids in assimilating your food.

but it must be Keen's 233

Less Pot-washing

SMP Enamelled Ware has the smooth surface and polish of fine crockery—without the breakage. And it is so very easy to clean—just like china, and therefore makes light work of pot washing.

Try this test. Take an SMP Enamelled Ware sauce pan and an all-metal sauce pan of equal size. Into each pour a quart of cold water. Put on the fire at the same time. The SMP sauce pan will be boiling merrily when the water in the other is just beginning to simmer.

SMP Enamelled WARE

"A Face of Porcelain and a Heart of Steel"

Three finishes: Pearl Ware, two coats of pearl grey enamel inside and out. Diamond Ware, three coats, light blue and white outside, white inside. Crystal Ware, three coats, pure white inside and out, with Royal Blue edge.

THE SHEET METAL PRODUCTS CO. LIMITED MONTREAL TORONTO WINNIPEG EDMONTON VANCOUVER CALGARY

Financiers Are Advised To Retain Their Confidence In Future Of Western Canada

"We may be a Farmer Government, but we are not Bolsheviks, and we welcome the co-operation of financial interests in the work that is before us," declared Premier John Bracken, in an address to members of the Dominion Mortgage and Investments Association at their annual meeting in Winnipeg.

"We want the financial interests to retain their confidence in Western Canada, and we assure them that we are not acting in the interest of any one class, but for the people as a whole," the Premier added.

Premier Bracken reviewed the conditions in the province of Manitoba, and stressed the importance of diversified farming. "Seventy-five per cent. were in difficulties," he believed, it was the particular and immediate problem of the financial men to see that the farmers who ought to be kept on the land were kept there. He believed, like Joseph of some thousand years ago, that in "fat years" the farmers should build up a reserve against "lean years sure to come."

All speakers stressed the great necessity for diversified operations and the rotation of crops, and also the importance of lower production and transportation costs to the farmers of Western Canada.

Farming needed ordinary business application, said R. H. Willis, M.L.A., a practical farmer, who delivered an optimistic address. He suggested the financial interests should make it their business to go into the farming problem. The thing to do was to bring good people and settle them on the improved farms, and he suggested that the loaning companies must have plenty of such farms that they could afford to sell at very low prices.

Industries in the country should be encouraged because more industries were essential, said Mr. Willis, who favored the retention of duty on agricultural implements. He did not think it was either the price or the duty on agricultural implements that kept farmers poor, but much more likely the lack of looking after their machinery.

While farming had not proved such a "bad job," Mr. Willis thought there was far too wide a distance between the production price and the price charged the consumer, but he would not complain if the consumer got the benefit. In conclusion, Mr. Willis said:

"We don't become millionaires, but no other life equals that of the farmer free from debts and worry, and you show me a farmer who has never mortgaged his farm and I'll show you a man who isn't worrying about his taxes." Incidentally, he remarked that he had never signed a note for anything he had bought and that he had never mortgaged his land.

Professor G. H. Lee, President of the Manitoba Agricultural College, believed the greatest kindness was to loan a farmer more money than he ought to have, and declared a further development of mixed farming was absolutely essential. Hundreds of eastern farmers had come to Western Canada to get away from farm drudgery, but were finding out it was impossible to escape work on a farm and be successful.

J. G. Hamy, superintendent of the demonstration farm of the International Harvester Company, Grand Forks, N.D., was another speaker who advocated mixed farming. "When the change to diversified farming is made prosperity will return," he declared.

Cought More Fish

Canada's catch of sea fish in March, 1923, increased seventeen per cent. over the same month last year, according to official figures. In March, 1924, 15,324,500 pounds of fish were caught, valued at \$701,536, compared with 12,565,500 pounds, valued at \$502,265, in March, 1923. The increase was chiefly in cod, halibut, salmon, clams and lobsters.

Daddy: "Can you tell me why the little hand of my watch goes faster than the big one?"

Johnny (after considering gravely): "I think, Daddy, it must be for the same reason that I have to run when I am walking with you."

W. N. U. 1527

Grain From Vancouver

226 Ships Leave Vancouver With Wheat From Prairie Provinces. Grain exports from Vancouver this season reached \$6,000,000 bushel mark recently. Since September last, when the 1923-24 season opened, to March 31, there have been 138 deep sea ships loaded with wheat for United Kingdom or Europe. About 100 of these loaded full cargoes. Some of them are repeat charters, others are liners.

To the Orient seventy-five departed during the period and thirteen to South America. Central America, Mexico and New Zealand. All told to March 31, a fleet of 236 deep sea ships departed from Vancouver with Western Canada wheat since September.

The month of May will see another twenty-five deep sea ships laden with grain out of Vancouver, the bookings for the month being nearly 5,000,000 bushels. June is expected to see 3,000,000 bushels moved. By the end of May the grain men expect the port to have easily passed 50,000,000 bushels for the season.

Canadian Cattle For British Guiana

The first time on record that a shipment of stock from the Dominion has been purchased in British Guiana took place recently when the Canadian Pacific steamer Berdon took on a number of prime Shorthorns at Montreal for shipment to British Guiana. This stock, which comes from the Maple Grove Stock Farm at Cooksville, is regarded as very high standard, and it is thought that this initial shipment may prove the means of opening up a new and profitable market for good quality Canadian cattle.

Greatly Improved Vaults

To protect bank clerks from the danger of being suffocated through accidental fire in vaults fitted with time clocks, the newest banks now equip their vaults with electric lights, oxygen tanks, a telephone and instructions saying what a person accidentally locked in should do.

Canada's Substantial Advantages

Canadian Farmer Has Many Advantages Over Farmers in U.S.

In his recent report on the wheat situation made to President of the United States, Henry C. Wallace, secretary of the United States department of the Interior, states: "The Canadian wheat farmer enjoys substantial advantages over the American producer in the matter of yields, land values, the quality of wheat he produces and lower freight rates from points equally distant from markets. The yield of wheat is materially higher in Western Canada than in many of the wheat producing states of the United States. The average yields of spring wheat in the prairie provinces during the ten year period 1913-1922 varied from 15 to 16 bushels per acre. In Minnesota, North Dakota, South Dakota and Montana for the corresponding period they ranged from 10.6 to 14.5 bushels. These figures do not reflect the losses resulting from abandoned acreage."

"The capital invested in land is also materially lower in Canada than in the United States," states Secretary Wallace. "The average value of farm lands in 1922 for Canada as a whole was \$40 per acre as compared with \$75 for the United States. In the prairie provinces of Canada average land values ranged from \$24 to \$32 an acre. In eleven of the western wheat states the range was from \$16 to \$110. It is evident that the American wheat farmer has a much heavier per acre investment in burden. It is quite apparent that the Canadian farmer has advantages which enable him to produce wheat at materially lower cost per bushel than the American farmer."

Prospects For Swedish Immigration

J. Erlander, of Stockholm, Sweden, is travelling across Canada to study immigration problems with regard to more Swedes coming over. Mr. Erlander, who owns a newspaper in Stockholm, is very gratified at the warm welcome which Western Canada gives to Scandinavian settlers. He is returning shortly from the coast over Canadian National lines.

Visitors to the British Museum will presently have the chance of seeing a Chinese portrait of a woman painted upon silk, which, though more than 70 years old, retains its vividness.

Foster Draws Attention To Operations And Activities Of The League Of Nations

Alberta Coal Resources

Welsh Mine Owners Propose To Develop Western Mines on Scientific Principles

To develop scientifically the immense coal resources of the province of Alberta, with the ultimate aim of supplying the fuel needs of Eastern Canada and other parts of the country, is a project which is now occupying the attention of a group of great Welsh mine owners. Representatives of this syndicate, Major S. J. Robins and Capt. Henry Davies, O.B.E., both of Cardiff, Wales, are now in Ottawa enroute to England after some months of extensive travel and inspection of the mining properties of the west.

Thoroughly convinced of the feasibility of supplying both Quebec and Ontario with western coal, saving these provinces the \$100,000,000 which is now sent yearly to the United States in coal trade, Major Robins and Capt. Davies have obtained for the British syndicate large coal areas in Alberta held by individuals and small companies, who have not sufficient capital to carry on development.

Development in Northern Ontario

One of the Principal Mining Areas of the World

Following a recent inspection made of the Temiskaming and Northern Ontario Railway system, Lieutenant-Colonel L. T. Martin, D.S.O., one of the commissioners of the railway, states that development in every line continues in Northern Ontario, particularly in agriculture and mining. He said that the district is now one of the principal gold, silver and cobalt producing areas of the world and recent reports of prospectors and mining engineers indicate the possibility of copper being found. Colonel Martin is optimistic of the future of Northern Ontario.

Individual and tribal property of American Indians is estimated to be worth \$727,716,397.

Sir George E. Foster called the attention of the Senate to the operation and activities of the League of Nations for the last year and advised the continued co-operation of Canada in this world-body. He said that through the British Empire the League of Nations was receiving hearty support as reflected in the opinions expressed at the last Imperial Conference.

The object of the League was the promotion of the abandonment of war; the promotion of mutual good understanding; and the adoption of unanimous measures to effect these purposes. There were fifty-four members of the League. It was urged that the League had not achieved peace in Europe. The reason the troubles of Europe were unsettled was the delay in settling peace terms, and in ability to enforce them. The League had nothing to do with the peace terms and no part or authority in enforcing them, but what the League had done was to keep peace between contending parties and take steps towards a lasting settlement. Insofar as the League was concerned there was not a single instance where one member had gone to war with another. The trouble between Italy and Greece was not a blow to the prestige of the League but had clarified the situation and strengthened the League's position.

Canada paid annually \$176,000 to the League. Canada's war sacrifice in men, money and material had been immense. If there had been a league of nations in 1914 he believed there would have been no war. The present League was our insurance against war and cost each Canadian two-thirds the price of a postage stamp annually.

Mexican Cow Pony For Prince

Prince of Wales Will Be Presented With Valuable Pony By U.S. Cow Punchers

The Prince of Wales is to have an opportunity to ride a typical Mexican cow pony. United States cow punchers who are to participate with a number of crack riders from the Canadian west in the rodeo at the British Empire Exhibition have decided to present him with one of their best mounts, according to Captain Thomas R. Dickson, of the Texas Rangers.

Tejana, born eight years ago in Chihuahua, is a spirited mustang 14 hands high with a sleek black coat, white nose and four white socks. Outfitted from Argentina and Australia, in addition to the Canadian and United States riders will compete in the roping, bucking and ball dogging contests at Wembley.

Dairying in Manitoba

Wheat Crop In 1923 Only Double Dairy Products

Manitoba, according to Premier Bracken, no longer carries all its eggs in one basket. Although wheat is still Manitoba's most important crop, its value in 1923 was only twice as great as that of dairy and allied products. Since 1913 the value of creamery butter produced in Manitoba has grown from \$1,000,000 to \$11,000,000. Dairy butter in the same period increased in value from \$4,000,000 to \$9,000,000. In two years, Manitoba has developed from an importer to an exporter of dairy products.

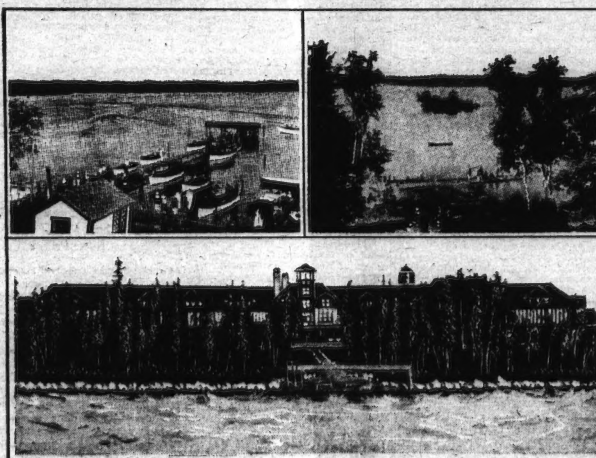

Building Fairly Active

The total awards for Canadian construction for the month of April, according to MacLean's Building Reports, Limited, were \$20,158,500, compared with \$11,584,500 in March and \$20,845,000 in April, 1922. Residential building accounted for 21.5 per cent. of the April total, amounting to \$5,566,200. Business building amounted to \$9,312,800 or 30 per cent.; industrial building \$3,641,100, or 12.2 per cent.; and public works and utilities \$1,388,600, or 26.3 per cent.

Castaways Make Good

Less than two per cent. of the 39,000 boys and girls from the Dr. Barnardo's Homes in England, who have been sent to Canada and Australia, have been failures. These children come from the most densely crowded and destitute areas of the United Kingdom, and every one was a castaway until rescued.

MINAKI, THE BEAUTIFUL COUNTRY

The Indian, with a natural aptitude for conferring upon place names which were appropriate to their setting, called it "Mee-Naw-Keo, the Beautiful Country." The white man who followed in his footsteps, but who enjoys the comforts of Minaki Inn, the splendid hotel operated by the Canadian National Railway, agrees with the Indian's name and his estimate of it.

For Minaki, because of its beauty and charm of simplicity, is drawing more and more Canadian and American tourists to itself year by year.

Canada is famed for her beauty spots, but none has sweeter charm for the holiday-seeker than has Minaki, situated on a green-clad promon-

tory jutting out into the Winnipeg River. Natural beauty of woodland, lake and river scenery greets the eye the moment one leaves the Continental Limited, the all-steel trails of the Canadian National Railways. Starting from Minaki Inn, and at each turn of the woodland trails there is a new vista of glorious scenery, framed by the line of the Winnipeg River, upon whose wavelets the sun plays. Beyond, with distance gradually shading the colors to a bluish grey, the visitor sees a panorama of timber-clad hills, which extend to the very shores of Hudson Bay.

By day, Minaki presents to the visitor a glorious succession of blues, greys and greens; in the sunset hour it is a veritable dream; at night, particularly with a moon shining through the trees, there is a new charm—the charm of resting inaction, when the air is laden with the tang of spruce, one rests lazily and hears the ripple of the Winnipeg River against the shore.

Minaki has charms for the holiday-maker whether he or she seeks bathing, boating or fishing or just simply beautiful rest. Fish are plentiful and Minaki is a place where all the big ones do not get away; extended water trips by canoe or motor boat may be had at leisure and there are sandy beaches for the bather. In addition there are tennis courts, golf course, dancing pavilion, and other attractions, so that no matter what the visitor's tastes may be, there is something to appeal to Minaki.

GENERAL INQUIRY INTO GERMANY'S ARMY EQUIPMENT

Paris.—The Allied Council of Ambassadors has agreed on the terms of the reply it will make to the note from Germany relative to the resumption of inter-allied control of German armaments, it was announced here.

The note adheres closely to the original decision of the ambassadors that the transformation of the military control commission into a committee on guarantees, placed at the expense of the allies, must be preceded by a general inquiry into the state of Germany's military establishment, with a complete inventory of its resources.

The note will demand that the future activities of the central authorities shall cover the five categories listed in the preceding correspondence on this subject. These are:

First—The re-organization of the German police.

Second—The transformation of munitions factories to pursuits of peace.

Third—The delivery of the balance of unauthorized war material in Germany's possession.

Fourth—Delivery of documents relating to the war material on hand when the armistice was signed.

Fifth—The promulgation of laws to put the recruiting organization of the army in harmony with the terms of the peace treaty.

Metric Weight System Adopted By Japan

Actual Usage Will Be Introduced During July

Tokyo.—Japan is preparing to adopt the metric system of weights and measures, and educational propaganda designed to acquaint the people with the system is being spread under the direction of the department of agriculture and commerce.

Actual adoption of the system will begin July 7. Within five years from that date all government departments, factories, services and schools must substitute the metric system for the present Japanese units of weight and measure.

CORNS

Lift Off—No Pain!

Doesn't hurt one bit—Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and the foot callouses, without soreness or irritation.

Heads Musical Association

Moore Jaw.—Election of Col. F. J. James, Regina, as president of the Saskatchewan Musical Association and decision to hold next year's "Southern Festival" in Regina, were the outstanding features of the annual meeting of the association held here.

ASTHMA

Spread liniment on brown paper and apply to throat, also inhale.

Offers Large Grant For Mental Hygiene Research

Toronto.—The Canadian National Committee for Mental Hygiene has received a grant of \$75,000 from the Rockefeller Foundation, for research, experimentation and demonstration in mental hygiene, says an announcement by the committee, on condition that an equal amount should be provided from Canadian sources for similar purposes. "The Rockefeller Foundation also stipulates that studies be conducted for a period of five years by applying mental hygiene principles to school children.

Brilliant State Ball

Buckingham Palace Is Scene Of Splendor in Honor Of Italian Royalty

London.—The state ball given by King George and Queen Mary at Buckingham Palace in honor of the visit of King Victor Emmanuel and Queen Helena, of Italy, was on even a greater scale of lavish splendor than the recent ball tendered their own subjects. The function was the culminating social event in connection with the visit of the Italian sovereigns.

Large crowds of Italians gathered in the precincts of the palace, where they were entertained with selections of music played by the band of the Coldstream Guards.

King George and Queen Mary and King Victor Emmanuel and Queen Helena, after the procession to the ball room, during which the national anthems of Great Britain and Italy were played, led off in the quadrille, and all the members of the royal party participated in the ordinary programme of the ball which followed.

The state apartments were beautifully decorated with flowers and shrubs. A guard of honor of the Coldstream Guards were mounted at the entrance of the palace. The ball room presented a dazzling display of jewels, the royal visitors having brought with them the priceless crown jewels of the House of Savoy and also specially made ball dresses, the work of Italian designers.

The guests included large numbers of members of foreign embassies, especially the Italian embassy, representatives of the British Government, headed by Premier MacDonald, who had with him his daughter, Isabel, and the leaders of all ranks of society.

May Improve British Ports

London.—Schemes for improving the port facilities of the United Kingdom at an estimated expenditure of \$20,000,000 have been recommended by a committee appointed by the Shipping Association, British Chamber of Commerce, and the Federation of British Industries, after a searching inquiry into the matter of the British ports.

Second Tornado In South

Atlanta, Ga.—The total known death toll of the series of tornadoes which swept the south for the second time in a month had mounted to 45 today. Approximately 100 persons are known to have been injured, scores made homeless and property damaged to the extent of more than a million dollars.

Says U.S. Offers To Purchase Death Ray

Matthews Claims American Government is Interested in Invention

Paris.—Americans have entered the race to obtain the secret of Grindell Matthews' death ray, Matthews claims.

With Great Britain, the inventor's own country, and France in competition for the diabolical invention which, it is claimed, may revolutionize war and make the nation which holds it supreme, Matthews gave out that he had received a written offer from the United States.

Other reports said the National Academy of Sciences at Washington had cabled the inventor asking particulars, and that American naval attaches here had been ordered to investigate Matthews' claims.

American officials here denied that the United States Government was in any way interested in the ray.

Meanwhile, both French and British claim to have a definite contact with the inventor cutting them to share in the deadly ray, which kills at great distances, explodes ammunition, destroys machinery and brings down airplanes in flames, according to Matthews.

A Severe Attack Of Heart Trouble Was Relieved By MILBURN'S Heart and Nerve Pills

Mr. S. E. Barnes, Athens, Ont., writes:—"Four years ago I had a very severe attack of heart trouble. I consulted my doctor; he treated me for some time, but I only seemed to be getting worse. I finally went to our druggist and purchased three boxes of Milburn's Heart and Nerve Pills and derived immediate relief from their use, and I can truthfully say they are a wonderful medicine. I always keep a box on hand, and if I feel out of sorts I take a few pills and feel all right again."

Milburn's Heart and Nerve Pills are 60c a box at all dealers, or mailed direct on receipt of order by The T. Milburn Co., Limited, Toronto, Ont.

Long Term Credits For Farmers

Dr. Tory, of Alberta, Urges Necessity For Giving Aid To Agriculture

Ottawa.—The necessity for long term credits at uniform rates, under federal control, to permit Canadian farmers to finance their operations, was suggested by Dr. H. M. Tory, president of the University of Alberta, and advisory chairman of the Honorary Council for Scientific and Industrial Research, who was examined by the banking and commerce committee of the House of Commons.

Dr. Tory followed closely the lines laid down in his report on rural credits published by the Federal Government in April last.

He said that in the United States and Canada most of the advocates of the long term credits system were of the opinion that only diversified farming would provide an adequate measure of security for such loans. In the western states such credits generally are, only available to mixed farmers.

Stefansson In Australia

Sydney, N.S.W.—Vilhjalmur Stefansson, the Arctic explorer, who proposes to explore the wild region of Australia, with the idea of ascertaining the possibility of cultivating them, arrived here May 27. He was welcomed by delegates of the Royal Society.

U. S. Presidential Aspirant

WILLIAM G. McADOO

Secretary of the United States treasury under President Wilson and now himself an aspirant for the Democratic presidential nomination.

Sale Of Shares Act Is To Be Tested

Winnipeg.—Validity of the Sale of Shares Act in Manitoba, Saskatchewan and Alberta will be tested by court action in all three provinces. The action will be brought by the Shareholders' Protective Association of the Northwestern Trust Company, in liquidation. This was the course decided upon when the return of the application to settle the list of contributors of the company came up before George Patterson, K.C., master of the Court of King's Bench. An adjournment of two weeks was granted.

Increase In Exports

During 1923 Canada's Best Customer Was United States

Ottawa.—Canada's best customer during the 12 months ended April was the United States, it having imported Canadian goods to the value of \$429,265,000, an increase over the previous year of \$50,000,000. Canadian purchases from the United States were \$59,652,000, an increase of \$11,000,000. Canada's next best customer was the United Kingdom. Imports from the United Kingdom were \$152,017,000, an increase of \$7,000,000; exports to the United Kingdom were \$356,950,000, a decrease of \$28,000,000.

Disaster In Bucharest
Bucharest, Rumania.—The arsenal and ammunition dumps on the outskirts of the city were destroyed by a terrific series of explosions and fire. Enormous damage was done, and great loss of life is reported.

C. N. R. DEFICIT IS REDUCED BY SUBSTANTIAL SUM

Ottawa.—It was in terms of optimism that Hon. G. P. Graham, minister of railways, presented to the House the annual statement of the Canadian National Railways and the Canadian Government Merchant Marine. He gave comparative results for last year and the year previous.

On all Canadian National Railway lines (including the Central Vermont) he gave the net operating revenue as:

1923, \$21,187,465; 1922, \$3,982,237; increase, \$17,194,228.

After usual deductions and additions involved in taxes, rentals, hire of equipment, etc., total income before fixed charges was:

1923, \$13,364,875; 1922, \$1,499,732; increase, \$11,865,093.

Fixed charges during the year increased from \$60,196,693 to \$66,144,228. The total deficit, after fixed charges, was:

1923, \$52,779,250; 1922, \$58,696,911; decrease, \$5,917,561.

The Canadian Government Merchant Marine had a deficit last year, after all charges, including depreciation and interest, of \$9,268,470. This is an improvement of \$280,808 over the previous year.

Mr. Graham drew attention to the profit that as a result of the year's operations, the railways themselves had been able to provide \$12,364,875 (an improvement in round figures over the previous year of twelve millions) towards fixed charges due to the public.

Sir Henry Thornton, Mr. Graham said, had made it clear that restriction of maintenance had played no part in the improvement last year. Mr. Graham suggested for the consideration of the House:

(1) Increase of the board of directors, to have a strong executive of business men close at hand who could be called together by telephone overnight.

(2) Whether the government should be asked to guarantee equipment securities.

Weekly Newspaper Men Go Overseas

Montreal.—Members of the Canadian Weekly Newspapers Association who will undertake the two months' trip to Belgium, France and the United Kingdom after the annual convention which will terminate in Toronto, July 7, now number 173. Members have signified their intention of joining the party from as far west as Duncan, B.C., and as far east as Lunenburg, N.S.

La Follette Possible Candidate

Washington.—Senator Robert M. La Follette announces himself ready to run for the United States presidency on an independent ticket.

HIGHEST PEAK IN CANADIAN ROCKIES

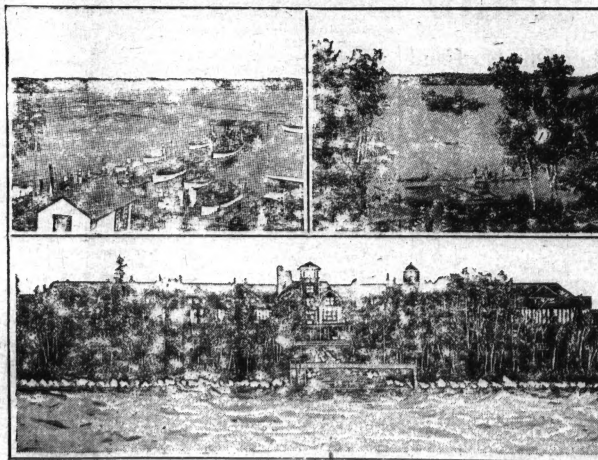

THE Alpine Club of Canada will
this year hold its annual
camp at the foot of Mount
Robson, the highest peak in the
Canadian Rockies, which towers
15,000 feet above sea level.
Mount Robson Park, named from
the mountain which it surrounds,
is a favorite stopping place for
tourists from United States points
who make the Triangle Tour of the
Canadian National Railways, which
embraces Vancouver, Jasper and
Mount Robson Parks and Prince
Rupert with a journey over the in-

land seas of the Pacific coast on
one of the Canadian National
Pacific Coast Steamships.
Among other things, Mount Rob-
son can be regarded as the most
frequently photographed mountain
in the whole of Canada, the Con-
tinental Limited of the Canadian Na-
tional Railways stopping for five
minutes at the foot of this mon-
arch of the Rockies in order that
tourists who are passing through
may secure photographs showing
its lofty, snow-capped peak.
Just outside of the boundaries of

the National Park is one of the
finest big-game hunting grounds
of the continent, where black cin-
nabar and grizzly bear abound and
where other big game, such as big-
horn mountain sheep and mountain
goats are to be found in great
numbers. Hundreds of hunters an-
nually make Mount Robson their
headquarters for their excursions
into the passes of this region after
big game, for here excellent accom-
modation may be secured either
during the summer tourist season
or later in the fall when the hun-
ters are out after their quarry.

MINAKI, THE BEAUTIFUL COUNTRY

THE Indian, with a natural
aptitude for conferring upon
places names which were ap-
propriate to their setting, called it
"Mee-Naw-Kee, the Beautiful
Country." The white man who fol-
lows in his footsteps, but who en-
joys the comforts of Minaki Inn
the splendid hospitality operated by
the Canadian National Railways
agrees with the Indian's name and
his estimate of beauty. For Minaki,
because of its beauty and charm of
simplicity, is drawing more and
more Canadian and American tour-
ists to itself year by year.
Canada is famed for her beauty
spots, but none has sweeter charm
for the holiday-seeker than has
Minaki, situated on a green and
prosperous setting out into the

Winnipeg River. Natural beauty
of woodland, lake and river scenery
greets the eye the moment one
leaves the Continental Limited, the
all-steel train of the Canadian Na-
tional Railways. Starting from
Minaki Inn, and at each turn of the
woodland trails, there is a new
vista of glorious greens, toned by
the blue of the Winnipeg River
upon whose wavelets the sun plays.
Beyond, with distance, gradually
shading the colors to a bluish grey
the visitor sees a panorama of tim-
bered hills, which extend to the
very shores of Hudson Bay.
By day, Minaki presents to the
visitor a glorious succession of
blues, greys and greens; in the
sunset hour it is a veritable dream;
at night, particularly with a moon

shining through the trees, there is a
new charm—the charm of resting
nature, when, the air laden with
the tang of spruce, one rests lazily
and hears the ripple of the Winni-
peg River against the shores.
Minaki has charms for the holi-
day maker whether he or she seeks
bathing, boating or fishing or just
simply healthful rest. Fish are plen-
tiful, and Minaki is a place where
all the big ones do not get away;
extended water trips by canoe
or motor boat may be had at leis-
ure and there are sandy beaches
for the bathers. In addition there
are tennis courts, golf courses, dan-
cing pavilion, and other attractions,
so that no matter what the visi-
tor's taste Minaki has a place some-
thing to appeal to Minaki.

Ladies, Please Bring Baskets.

Sporting Notes.

Stony's footballers played the Grove Friday night on the latter's grounds, and after a long play, succeeded in pulling down a tie, 2-2. Each team put up a good game. The Grove's goalkeeper scored the first goal for Stony by backing into his goal with the ball in his hands, much to the delight of the visitors. The big guy playing full back for Stony seemed to be a source of annoyance to Grove players, as several of the latter were noticed taking nose dives into the grass when nearing Stony's goal. Young Eddie Doll made some excellent plays for Stony. Remark was made that three of Stony's best baseball players were on the Grove team, backing the Stonys.

Stony's line up: Hy Miller Sr, Doll, Wood, Michael, J Miller, C Umbach, H Sinner, J Barth, W Barth, Dward Moyea, Eric Heichen, Grove: Riek, McLeney, W Stoeckle, Chesser, H Loeblich, J Eler, Ad Brox, J Miller, Maculister, Logan, and H Wangler.

The Basketball team from the local school played the Grove Thursday. The latter seemed to put it all over the Stonys at the beginning of the game, but the latter steadied down to their work, and held their own from then on. The result at the end was—Grove 18, Stony 15.

Wabamun beat Dunfield on the 1st by 16 to 5. Second game—Wabamun 4, Onoway 4 runs.

Eight auto loads of players and rooters journeyed to Evansburg on Sunday last, when our baseballers played the first League game of the season. The local team was weakened by the absence of three of its regulars, and succumbed to Evansburg's good team, 7 runs to 3. Stony's players were given the usual good reception they get at this town.

The ball players were accompanied by Stony's football outfit, the latter playing the Evansburg footballers at the conclusion of the baseball. As was to be expected, Stony's players didn't have a show against the experienced kickers at the mining town, and consequently failed to score a goal. 'Twas a long way to go for some practice.

Onoway's ball team is due in Stony on Sunday next at 4 p.m.

And now Promoter Wood is arranging to play his bunch of football Hasbeens against Mike's regular players, for the refreshments.

A good basketball game was held in Stony on the holiday, when the Grove players beat the local team 11 goals to 6. A return match is billed for the Grove on the Picnic day, June 18th.

The local ball-tossers were out in full force on Tuesday night, getting some practice for the big game.

Holborn News.

Minnie May Jarvis, wife of John Alonzo Duval, passed away at her home in Holborn, on Tuesday May 27, after a lingering illness, at the age of 60 years 6 months 4 days.

Deceased was born at Byron, Ont., and resided at Thamesville until 1914.

She leaves to mourn her loss a husband, four children, Mrs J P Andersyn, Batavia, Ill; John E. West Lorne, Ont; Percy W. Blinsky, Alta; and Mrs Rheta Berry, of Mayerthorpe; also 1 sister and 2 brother, 6 grandchildren.

The funeral was held May 30; service being conducted by Rev S F Tackaberry, of the Anglican Church in Edmonton.

Interment was made in the Inga Cemetery.

Card of Thanks.

Mr J A Duval and family wish to thank their friends and neighbors for the many acts of kindness shown them in their recent bereavement.

News from the Grove.

Spruce-Grove Community League held another meeting Friday evening last, with Mr Jac Brox presiding. Arrangements were completed for the big picnic Wednesday June 18. This will be a big day at the Grove, with baseball, football and basketball games, and horse and pony racing.

Geo E Martin is chairman on the juvenile program.

* Mr Baker, Music committee. M Gabel, grounds committee.

Napoleon Gagne, chairman horse races and tug-of-war.

Mr Albert Loeblich this week bought a new Ford coupe from Johnny Miller.
